No food products sold in our stores are sold as allergen free or are certified as vegetarian or vegan.

All menu items may contain or come into contact with Wheat, Crustacea, Mollusc, Egg, Milk, Fish, Soy, Sesame and Sulphites.

We have strong food safety practices to minimise the risk of cross contamination of allergens, however this does not eliminate all risk of cross contamination. There will always be a risk that allergens will be transferred during the storage, preparation or service of our food products as we operate full functioning kitchens at most of our stores.

Whilst some ingredients may not contain animal ingredients, we cannot guarantee that there will be no cross contamination with ingredients that do contain animal ingredients in our stores.

In particular, our store kitchen's require the deep-frying of different proteins within the same fryer. Removing an ingredient may not eliminate its presence and any ingredient in our store which may be present in any of our other menu items. Accordingly, we are unable to guarantee that any product is free from any traces of allergens.

If you have any queries, please contact us at customerfeedback@sushisushi.com.au
